Salt Lake City, Utah 84116

Attn: Paul Baker

As per our phone conversation on August 25th 2008 regarding the citations on the bromide Property, and needed surety bond.

As of October 31st 2007 Unico Incorporated has no Legal access to the Bromide property. No mining activity has been conducted on the property since October 2004 by Unico or its subsidiaries. We understand that we are listed as the responsible party and request an extension of three weeks to resolve both of the issues at hand. In the mean time we will update the information regarding the current owner/operator.

As fore the citation regarding the oil that is located at the lower Kaibab Mill site. I would like to address this right away, and will contact the current property owner and request permission to access the property so cleanup can begin no later than September 3rd, dependent upon Kaibab approval.

The oil barrel and pail were on the property prior to Unico taking over the property in early 2001. Our company hold these type of issue at the highest regard and will overcome whatever means to address an immediate cleanup.

Please contact me if you have any questions regarding this matter.

Sincerely,

Charles J. Madsen
General Manager
Deer Trail Mining Co.
